Art Unit: 3662

1. Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As to claim 1, lines 4-7, 10-12; claim 12, “a directivity generator that generates transmission directivity of a general communication terminal apparatus that carries out communication at a speed equal to or lower than a second information transmission speed”, and then also “carries out communication at a speed equal to or greater than a first information transmission speed” are not clear. It’s unclear as at what speed the directivity generator that generates transmission directivity of a general communication terminal apparatus that carries out communication.

Claims 2-11 depend from indefinite antecedent claims.
